Before You Upload ...

Format your pages: Set your page size for a 8.25" x 10.75" book. You can [download a template](#) or let Lulu do the formatting for you with our [professional services](#). Make sure your book has between 24 and 800 pages. [Find out more about formatting your pages.](#)

Check your file: Make sure you're using one of the [file formats](#) we support, and ensure password protection is turned off. If you're uploading a PDF you can use Lulu's [Acrobat](#) or [InDesign](#) settings. Also, you need to [embed your fonts](#). [Find out more about creating your PDF.](#)

If your file is greater than 300MB use FTP to upload your files. [Learn how to use FTP for large files.](#)

Only upload files for the inside of your book right now. We'll take care of your cover files later.

Got more work to do? No problem. We've saved your progress so far. You can get back to this step any time in your Project List in My Lulu.

Making Your Print-Ready File

Your print-ready file is complete.
We had to make the following changes:

- We detected and flattened transparencies in your file.

We recommend addressing the following:

- We detected low resolution images in your file (pages 8-40, 43). For best results we recommend image resolution of 300 ppi.

Download and review the modified file before proceeding.

Play around with Background, Layouts, and Themes until you find what you like

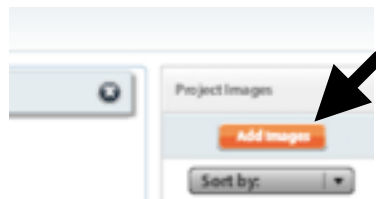

*Background and Theme won't matter if you are importing a photo for your cover

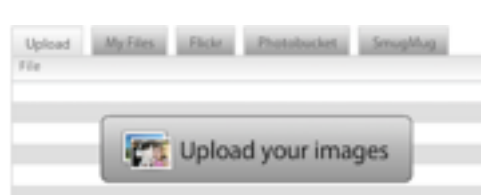

Importing a Cover - Do you want one or two pictures?

- One - This is if you want the front and back cover to be the same picture, with half on the front and the other half on the back. You will need a high resolution horizontal picture.
- One - This is if you want a picture only for the front cover. You will need a high resolution vertical image.
- Two - This is if you want separate pictures for the front and back covers. You will need 2 high resolution vertical images.
